2030

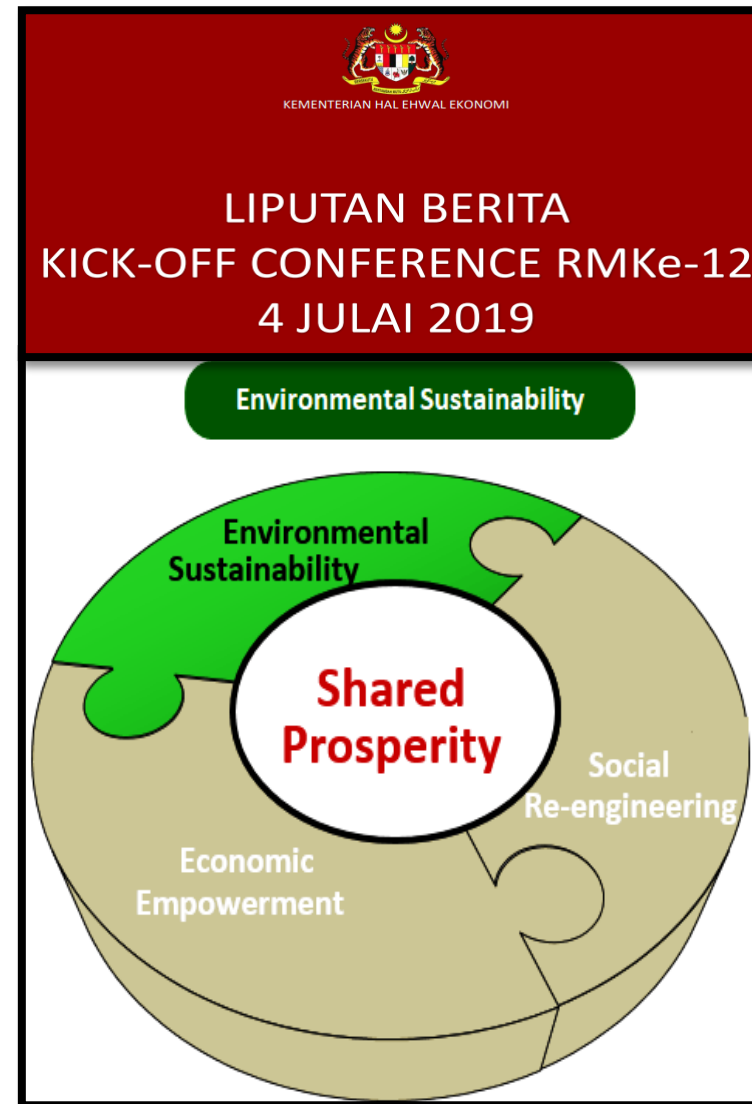

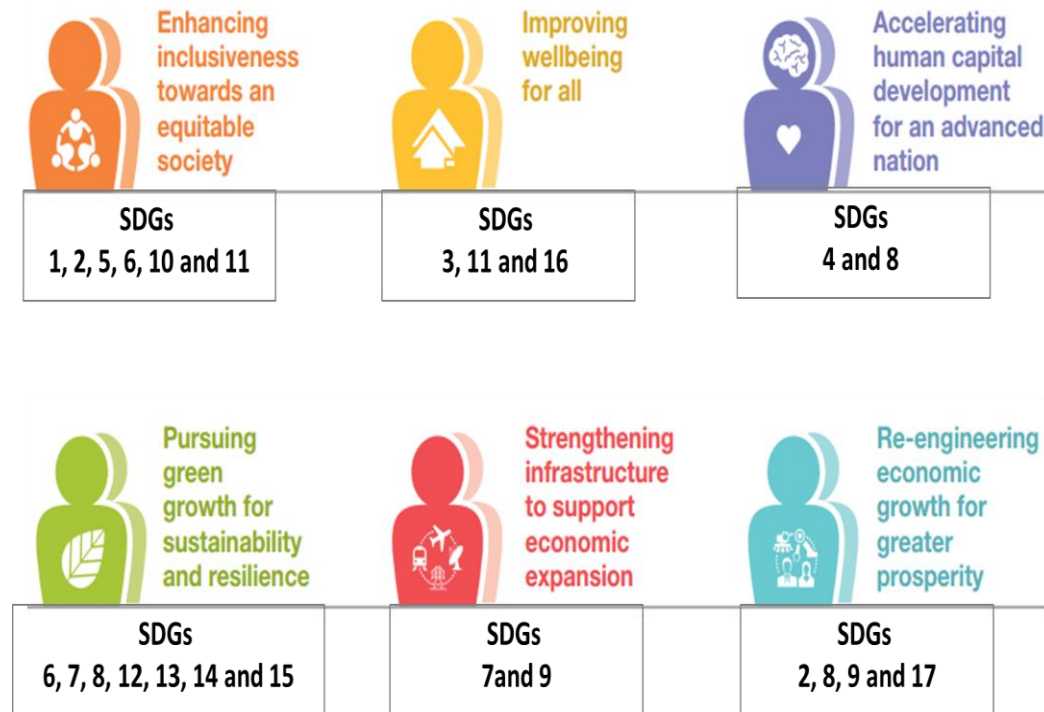

Shared Prosperity Vision 2030 is a commitment to make Malaysia a nation that achieves sustainable growth along with fair and equitable distribution, across income groups, ethnicities, regions and supply chains. The commitment is aimed at strengthening political stability, enhancing the nation's prosperity and ensuring that the *rakyat* are united whilst celebrating ethnic and cultural diversity as the foundation of the nation state.

WAY FORWARD

- Integrated and holistic approaches are important in harmonising development and environmental protection activities.
- There should be **payment for Ecosystem Services (PES)**:
 - Integrated Water Resource Management (IWRM),
 - Integrated River Basin Management (IRBM),
 - Integrated Coastal Zone Management (ICZM),
 - Integrated Lake Basin Management (ILBM),
 - Global Geopark, Biosphere Reserve, World Heritage Site, etc.
 - Ecosystem Approach to Fisheries Management (EAFM), etc.
- ☐ **Ethical, effective, resilient and proactive leadership** at individual and institutional levels are needed to ensure a meaningful sustainable development process.
- ☐ There should be motivation and incentives; and monitoring with usage of **key performance indicators and indices**.
- ☐ Requires proactive **leadership at individual selves**.
- ☐ Need to be **multitasking**.
- ☐ Need to be **brave to take leadership**.
- ☐ Must have **stamina to continue leadership**.
- ☐ **Must have successor to lead**.

Thanks and let's talk, discuss and plan better..
